RAJSHREE POLYPACK LIMITED

CHAIRMAN MESSAGE

Dear Stakeholders,

It is my privilege to present the 14th Annual Report of Rajshree Polypack Limited for the year ended March 31, 2025.

Industry Outlook

The global packaging industry continues its rapid growth trajectory, driven by changing consumer lifestyles, rising penetration of modern retail and e-commerce, and the increasing preference for food formats that demand safe, hygienic, and convenient packaging. Sustainability, innovation, and regulatory push for eco-friendly solutions are further shaping the industry's future. At a global level, the food packaging market is estimated at USD 458.6 billion in 2024 and expected to expand at a CAGR of 5.6% between 2025–2034 (Source: Future Market Insights). In India, the food and beverage packaging market is projected to reach USD 38.27 billion by 2025, growing at a CAGR of around 6.5% through 2030 (Source: GII Research).

Rajshree Polypack – Strengthening Leadership in Rigid Packaging

Over the years, Rajshree Polypack has established itself as a trusted partner for India's leading food, dairy, and confectionery brands, while steadily expanding its global footprint. Our integrated capabilities across sheet extrusion, thermoforming, and injection moulding technologies, coupled with a strong focus on design, quality, and innovation, enable us to deliver differentiated solutions to our customers.

During FY 2024-25, we strengthened this leadership through:

- Capacity expansion in extrusion, thermoforming, and injection moulding, ensuring readiness to serve growing demand across domestic and international markets.
- Diversification of product offerings, with over 20 new injection moulding SKUs launched and 16 new customers added, including reputed institutional and global accounts.
- Product innovation, including PET shrink-labelled yoghurt cups for a global FMCG brand, retortable cups for ready-to-eat meals, specialised trays for QSR formats, and multiple new SKUs in the ice-cream, yoghurt, beverage, and fresh produce categories.

These initiatives not only strengthen our market position but also enhance margins and reduce customer concentration risks.

Standalone Financial Performance

FY 2024-25 was a year of strong progress. On a standalone basis, the Company achieved:

- Revenue of ₹ 32,973.50 lakhs, a growth of 20.17% YoY
- EBITDA of ₹ 4,629.94 lakhs, a growth of 26.12% YoY
- Profit After Tax (PAT) of ₹ 1,439.86 lakhs, compared to ₹ 949.97 lakhs in FY 2023-24

These results reflect improved operational efficiency, strong customer traction, and healthy margin expansion.

Olive Ecopak – Joint Venture for Sustainable Packaging

A significant milestone during the year was the operationalisation of Olive Ecopak Private Limited, our joint venture for sustainable paper-based food service packaging, in FY 2024-25. Olive's products—comprising aqueous-based, plastic-free, and food-safe tableware—are designed to replace single-use plastics and cater to the rising global demand for eco-friendly alternatives. Olive Ecopak has invested ₹ 125.35 crores till March 31, 2025, in building its manufacturing capacities and is now equipped with the requisite infrastructure to cater to diverse customer requirements.

While initial product offtake was slower—owing to the need for wider SKU development and longer approval cycles—the medium-to-long-term opportunity is substantial. India's fast-growing food service sector and the global regulatory push against single-use plastics provide Olive with a strong runway for growth. FY 2025-26 is expected to mark the beginning of Olive's profitable scale-up.

Strategic Priorities for FY 2025-26 and Beyond

- Improve profitability by leveraging expanded capacities and focusing on higher-margin products.
- Strengthen the balance sheet through disciplined capital allocation and gradual debt reduction.
- Accelerate innovation to deliver value-added, sustainable solutions across customer segments.
- Scale Olive Ecopak as a credible domestic and global supplier of sustainable food-service packaging.
- Expand export reach by tapping growing international demand for innovative and eco-friendly packaging.

Acknowledgments

On behalf of the Board of Directors, I extend my sincere gratitude to our shareholders for their unwavering trust, to our lenders, suppliers, business partners, and employees for their commitment, and to all stakeholders who continue to support our growth journey.

With your continued confidence, Rajshree Polypack is well-positioned to create enduring value and lead the transformation toward sustainable food packaging.

Best Wishes,

RAJSHREE POLYPACK LIMITED

Item no 9: Approval the Appropriate Adjustment for the Options Grants Under Rajshree Polypack Limited- Employee Stock Option Plan 2022:

The Members of the Company had approved the Rajshree Polypack Limited – Employee Stock Option Plan 2022 ("RPPL ESOP 2022") by way of a special resolution passed on August 04, 2022. Pursuant to the said plan, the Company had granted stock options to eligible employees on February 06, 2023, and October 31, 2023, in accordance with the applicable provisions of the Companies Act, 2013 and the Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021 ("SEBI SBEB Regulations").

Subsequently, the shareholders of the Company had approved a bonus issue of equity shares in the proportion of 2 (Two) equity shares for every 1 (One) existing equity share held, on February 16, 2024, with the record date of which was as Monday, February 26, 2024.

In view of this corporate action, the Company is required to make fair and reasonable adjustments to the outstanding stock options, including options granted, vested but not exercised, unvested, and lapsed/cancelled, so that the total value of the benefit to the employees remains unchanged post such bonus issue. These adjustments are in accordance with the provisions of the SEBI SBEB Regulations, the Companies Act, 2013, and Rule 12 of the Companies (Share Capital and Debentures) Rules, 2014.

The proposed adjustments would include:

- Proportionate adjustment in the number of stock options granted,
- Adjustment in the exercise price, if applicable,
- Ensuring that post-adjustment, the value of options remains neutral for the employee and does not dilute the benefit intended under the original grant.

Such adjustments would apply to all options granted under the RPPL ESOP 2022, including those:

- Granted on February 06, 2023, and October 31, 2023,
- That are vested but not exercised,
- That are yet to vest,
- That are exercised or lapsed/cancelled as per the scheme terms.

The Nomination and Remuneration Committee and the Board of Directors of the Company in its meeting held on August 12, 2025 and August 13, 2025 respectively have reviewed and approved the proposed adjustments and recommend the same to the shareholders for their approval as required under SEBI Regulations and the terms of the RPPL ESOP 2022.

A copy of the detailed terms of the adjustments and the proposed revised option details is available for inspection at the Registered Office of the Company during business hours on all working days up to the date of the Annual General Meeting.

None of the Directors, Key Managerial Personnel of the Company or their relatives are in any way concerned or interested financially or otherwise in the proposed resolution, except to the extent of the stock options granted to them, if any, under the RPPL ESOP 2022. The Board recommends the Special Resolution set out at Item No. 9 of the Notice for approval by the Members.

Item no 10: Consider and approve the Material Related Party Transaction(s) with Olive Ecopak Private Limited

The definition of 'material related party transaction' was amended vide the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) (Sixth Amendment) Regulations, 2015 ("SEBI Listing Regulations") effective April 1, 2022, mandates prior approval of members by means of an ordinary resolution for all material related party transactions and subsequent material modifications as defined by the audit committee, even if such transactions are in the ordinary course of business of the concerned company and at an arm's length basis.

Pursuant to the amended Regulation 23 of the SEBI Listing Regulation, effective from April 1, 2022, a transaction with a

related party is to be considered material, if the transaction(s) to be entered into individually or taken together with previous transactions during a financial year, exceeds 1,000 crores or 10% of the annual consolidated turnover of the listed entity as per the last audited financial statements of the listed entity, whichever is lower. All material related party transactions require prior approval of the shareholders through an ordinary resolution and no related party is permitted to vote to approve such resolution, whether the entity is a related party to the particular transaction or not.

The annual consolidated turnover of the Company for FY 2024-25 was 329.74 Crores. Accordingly, any transaction(s) by the Company with any of its related party in excess of 32.97 Crores (10% of the Company's annual consolidated turnover) would be considered as a material related party transaction, thereby requiring prior approval of the members of the Company.

Moreover, the estimated value of the transaction(s) with Olive Ecopak Private Limited ("OEPL") relating to purchase, sale, job work or any other similar contract / arrangement of providing / availing goods or services, selling or otherwise disposing of, or buying, leasing of property of any kind, reimbursement of expenses, transfer of any resources, services or obligations and providing unsecured loans or security or give guarantee or to make investments (including conversion of existing loans into any other nature of securities), transfer of any resources, services or obligations on such term(s) and condition(s) as the Board of Directors may deem fit for an amount during the financial year 2025-26 are likely to exceed the threshold prescribed under Section 188 of The Companies Act, 2013, read with the rules made there and under Regulation 2(zc) & 23 of The SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and Indian Accounting Standard (IND AS) 24 and will be considered material and therefore would require the approval of shareholders of the Company by an Ordinary Resolution.

The proposed aforesaid transaction(s) between the Company and OEPL would fall under the purview of 'material related party transactions', as defined under the SEBI Listing Regulations, thereby mandating prior approval of the shareholders vide ordinary resolution.

Accordingly, basis the approval of the Audit Committee, the Board of Directors recommend the Resolution set out in the Notice as Item No. 10 for the approval of the shareholders as Ordinary Resolution.

The Shareholders may note that as per the provisions of the SEBI Listing Regulations, all related parties (whether such related party is a party to the above-mentioned transactions or not), shall not vote to approve the resolution set out at Item No. 10.

Necessary disclosures as required under the SEBI Listing Regulations and SEBI Circular No. SEBI/HO/CFD/CMD1/CIR/P/2021/662 dated November 22, 2021 ("SEBI 2021 Circular") in connection with the proposed material related party transactions is enclosed in "Annexure B".

Except for Mr. Ramswaroop Radheshyam Thard, Mr. Rajesh Satyanarayan Murarka (both directors of the Company and Olive Ecopak Private Limited) and their relatives, none of the Directors, Key Managerial Personnel of the Company and their relatives are in any way, concerned or interested, financially or otherwise, in the said Resolutions except to the extent of their respective shareholding in Rajshree Polypack Limited.

Industry structure and developments

Economic overview & Outlook

Global Economy

As per the April 2025 report of the International Monetary Fund (IMF) on the Global Economic Outlook, the world economy has demonstrated notable resilience despite facing a confluence of significant headwinds. Over the past year, nations have continued to navigate the lingering after-effects of the COVID-19 pandemic, particularly supply chain disruptions that have yet to fully normalise. These challenges have been compounded by the ongoing Russia-Ukraine conflict, which has kept geopolitical uncertainty elevated and contributed to persistent volatility in global energy and food markets. Elevated prices for these essential commodities have placed pressure on both advanced and emerging economies, especially those heavily reliant on imports.

At the same time, inflationary pressures fuelled by earlier surges in demand, tight labour markets, and commodity price shocks have remained above target in several key economies. In response, central banks worldwide have maintained higher interest rates and adopted tighter monetary policies, aiming to bring inflation under control without derailing economic growth. Parallel to these monetary measures, many governments have implemented targeted fiscal interventions, such as subsidies, tax relief, and infrastructure spending, to cushion vulnerable sectors and support domestic demand.

These combined policy efforts have helped avert a potential global recession, safeguarded banking system stability, and enabled many emerging markets to sustain positive momentum, aided by strong domestic consumption and investment inflows. According to the IMF's latest projections, the global economy is expected to grow by 3.0% in 2025 and 3.1% in 2026. Inflation is projected to continue moderating, with headline rates declining to 4.2% in 2025 and 3.6% in 2026, reflecting easing supply bottlenecks and more stable commodity prices. Nevertheless, inflation in the United States is anticipated to remain above the Federal Reserve's target range, suggesting that monetary policy in advanced economies may stay relatively restrictive in the near term.

(Source: World Economic Outlook- July 2025, April 2025 Published by IMF)

Indian Economy

India's economic growth remained robust in 2024-25, albeit with some moderation compared to the previous year. According to the National Statistical Office (NSO), real GDP grew by 8.2% in FY 2023-24, then slowed to 6.5% in FY 2024-25 as post-pandemic pent-up demand normalized. CRISIL estimates that growth will stabilize around 6.5% in FY 2025-26, in line with the Reserve Bank of India's projections. The slight slowdown in FY 2024-25 was largely attributed to higher interest rates and a waning fiscal impulse, which together tempered domestic demand.

Despite global geopolitical challenges and persistent inflationary pressures, India's export sector has shown resilience. Exports of goods and services grew 6% year-on-year in the first nine months of FY 2024-25, indicating robust performance even amid global headwinds. The Economic Survey 2024-25 highlights that India's external sector remained resilient and notes that global trade conditions are expected to improve going forward. Indeed, world merchandise trade volume, which contracted in 2023, is forecast to expand by 2.6% in 2024 and 3.3% in 2025, as inflationary pressures abate and demand for traded goods picks up. This anticipated easing of global trade headwinds in 2024 and 2025 should help bolster India's goods trade in the coming years.

Packaging

Packaging plays an important role in building a brand's identity and shaping how consumers view it. It not only protects the product but also acts as a powerful marketing tool that reflects a brand's values, quality, and uniqueness in a competitive market. Marketers see packaging as essential for attracting attention, sharing product details, and improving the overall customer experience. Well-designed packaging can encourage brand loyalty and influence buying choices by helping a product stand out and leave a lasting impression. In many ways, packaging acts as a silent salesperson, speaking directly to consumers, expressing the brand's character, and creating an emotional connection.

Packaging comes in different materials and forms to protect and display products. Rigid packaging, such as bottles, containers, and cartons made from glass, metal, or hard plastic, keeps its shape and provides durability. Flexible packaging, like pouches and bags made from plastic or foil, offers a lightweight, cost-effective, and adaptable option. Both types are important for product safety and

RAJSHREE POLYPACK LIMITED

meeting consumer needs, including the rising demand for eco-friendly solutions like bioplastics and recycled materials.

Global Packaging Industry

The global packaging market size is estimated at USD 1.18 trillion in 2025 and is expected to reach USD 1.44 trillion by 2030, growing at a CAGR of 3.92% during the forecast period (2025-2030).

Over the past decade, the packaging industry has evolved with innovative formats like high-barrier films and stand-up retort pouches increasingly replacing traditional options such as metal tins and glass jars, especially in the food sector. These solutions offer benefits in weight, space efficiency, and shelf-life, while global trends push for sustainable materials like recyclable, biodegradable, and compostable options. Technological advances, including smart packaging and automation, along with the growth of e-commerce, are driving efficiency and functionality. Asia-Pacific remains the largest and fastest-growing market, fuelled by its large population, economic growth, and strong manufacturing base. (Source: Mordor Intelligence)

Indian Packaging Industry

India packaging market size is estimated at USD 101.12 billion in 2025, and is expected to reach USD 169.73 billion by 2030, growing at a CAGR of 10.73% during the forecast period (2025-2030).

The demand for packaging in India has surged dramatically, driven by the rapid expansion of consumer markets, especially in processed food, personal care, and pharmaceuticals. Packaging is now one of the fastest-growing sectors in India, with significant contributions to technology and innovation across various industries, particularly in the fast-moving consumer goods (FMCG) sector. Factors such as a rising population, increasing income levels, and changing lifestyles are boosting consumption across multiple industries, leading to a higher demand for packaging solutions.

Rigid Packaging Industry

Rigid packaging is known for its ability to keep its shape and structure, offering strong protection for the items inside. It is often made from materials such as glass, metal, and hard plastics. Hard plastics like polyethylene terephthalate (PET) and polypropylene (PP) are commonly used for bottles and containers because they are strong, versatile, and reliable. This type of packaging is widely used in industries such as food and beverages, pharmaceuticals, personal care, and household products, where durability and protection are essential.

Rigid plastic packaging is appreciated for being durable, cost-effective, and increasingly eco-friendly. One of the main factors driving its growth is the rising demand for sustainable packaging options. The convenience packaging market, which supports busy lifestyles through products designed for quick consumption and minimal preparation, also plays a major role in boosting demand. In addition, higher disposable incomes and the growing use of packaged goods in emerging markets are further increasing the need for rigid plastic packaging, creating new opportunities for producers.

Global Rigid Plastic Packaging Industry

The global rigid plastic packaging market is estimated at USD 265.18 billion in 2025, and is expected to reach USD 308.02 billion by 2030, growing at a CAGR of 3.04% during the forecast period (2025-2030).

The demand for rigid plastic packaging is expected to increase due to several key factors, including industrialization, the expansion of the convenience food sector, heightened manufacturing activities, growing disposable incomes, increased consumption levels, and the rise in e-retail sales.

Indian Rigid Packaging Industry

The India rigid plastic packaging market size is valued at USD 14.28 billion in 2025 and is forecast to reach USD 19.40 billion by 2030, advancing at a CAGR of 6.32% over the next five years. This expansion will be primarily driven by increasing demand for rigid plastic products in various sectors, including food and beverages and personal care. Additionally, the need for essential home products like trays, shallow plates, and rigid plastic containers contributes to the market's growth in India.

Rigid plastic packaging is extensively adopted in the country due to its cost-effectiveness, durability, and lightweight nature. Materials such as PET and HDPE are easily recyclable and can be directly placed into recycling bins. While flexible packaging is also recyclable, it is generally less eco-friendly compared to rigid plastics. The market for rigid plastic packaging is expanding as it is increasingly utilized across various end-user industries nationwide.

The rigid plastic packaging market in India is experiencing robust expansion, driven by the growing food and beverage sector. Increasing demand for packaged meals within F&B and healthcare industries is fuelling this growth. Urbanization, rising disposable incomes, and evolving lifestyles are contributing to a steady rise in the need for packaged goods. Rigid plastic packaging enhances food safety and extends shelf life, while its moisture resistance and tamper-proof features are gaining traction in the healthcare sector.

Opportunities

- Rising Consumption in the Food & Beverage Sector

RAJSHREE POLYPACK LIMITED

The steady increase in packaged food and beverage consumption driven by changing lifestyles, urbanization, and growing preference for ready-to-eat options continues to fuel demand for innovative packaging. RPPL can capture this opportunity by offering high-performance solutions with improved shelf life, portability, and visual appeal to meet evolving consumer expectations.

- Focus on Sustainability

Sustainability is now a central driver in packaging decisions, with regulatory frameworks and customer preferences pushing for greener solutions. RPPL's capabilities, bolstered by the Olive Ecopak joint venture, position it well to deliver recyclable, biodegradable, and compostable products. Expanding this portfolio can open access to environmentally conscious segments and global markets with strict compliance norms.

- Advances in Technology and Product Innovation

Emerging packaging technologies such as interactive smart packaging, enhanced barrier films, and lightweight rigid formats present avenues to differentiate in a competitive market. Leveraging these innovations can improve customer experience, reduce material use, and strengthen brand value, while also appealing to premium and export markets.

- Growth in E-commerce Packaging Demand

With online shopping volumes climbing, there is greater need for robust, tamper-proof, and efficient shipping-friendly packaging. By developing e-commerce-specific designs and increasing production capacity, RPPL can strengthen relationships with major platforms and logistics providers, capturing a growing share of this segment.

- Market Diversification and Regional Expansion

Increasing incomes and deeper penetration of packaged goods into rural areas, smaller cities, and overseas markets create scope for wider distribution. The Odisha facility will serve as a strategic hub to target high-growth regions, reduce transit times, and enhance competitiveness in both domestic and export markets.

Threats

- Instability in Raw Material Costs

Prices of polymers such as PET, PP, and HDPE remain exposed to fluctuations in global crude oil and commodity markets. Sudden spikes can pressure margins unless effectively managed through procurement strategies, supplier diversification, and cost-optimization measures.

- Evolving Regulatory Environment

Environmental legislation around single-use plastics, recyclability standards, and safe food-contact materials is tightening worldwide. Adapting to these requirements may necessitate re-engineering products, upgrading processes, and investing in sustainable material development to maintain compliance and market access.

- Rapid Technological Shifts

Breakthroughs in bio-based materials, advanced recycling, and automation could alter competitive dynamics. Companies that fail to adopt or integrate such advancements risk losing market share to more agile, tech-forward competitors.

- Macroeconomic and Geopolitical Risks

Uncertain global conditions ranging from economic slowdowns to trade disputes—can reduce demand in packaging-intensive industries. External shocks such as geopolitical conflicts, climate-related events, or pandemics can also disrupt raw material supply chains, affecting production schedules and delivery commitments.

Segment-wise performance

Presently, the Company operates in only one primary segment, i.e., Rigid packaging products and hence, segment-wise information does not apply to the Company.

Outlook

The company is a leader in technological innovation, using modern equipment to deliver high-quality products. In recent years, it has greatly increased its production capacity, allowing it to meet the growing demand in the market. The company has set up a manufacturing plant in Orissa. This facility serves as a strategic location to the fast-growing food manufacturing sector in the region. It helps increase production and improve service to local customers, making use of the growth opportunities in the area.

Marketing and branding are important for the company's success. It takes part in many national and international exhibitions and industry events. These efforts, along with strong product development and business promotion, have helped the company gain more than 72 new customers and serve almost 1,173 in total. The company's products have been displayed at well-known international events, attracting interest from large potential customers around the world. This has improved its visibility in global markets and

RAJSHREE POLYPACK LIMITED

strengthened its position internationally.

A key achievement during the year was the progress of the joint venture, Olive Ecopak Private Limited, which commenced commercial production in March 2024. The venture has since stabilized operations and generated revenue of ₹16.38 crore in FY2024–25, marking an important step in expanding the company's sustainable paper-based packaging portfolio. The venture is now in the early stage of introducing its products to the market, with samples being shared with many potential customers for approval. This is expected to bring major growth opportunities in the future.

Risks and concerns

Risk	Description	Mitigation
Business Agreement Risk	The Company relies on strategic relationships and agreements with various clients. Termination of agreements, or less favourable renewal terms could adversely affect profitability	The Company has demonstrated ability of significantly enhancing product offering expanding its portfolio particularly across sustainable and high barrier packaging, which makes it a favourable partner.
Raw Material Risk	An interruption in the supply or significant increase in the price of raw materials or packaging materials may adversely affect the Company's business prospects, results of operations and financial condition.	Maximizing cost efficiencies is an integral part of RPPL's strategy, whereby it constantly focuses on reducing cost of goods sold, effectively managing operating expenses and enhancing cash flows. For this, the Company has undertaken several initiatives including backward integration and centralized material procurement. It leverages its scale of operations to achieve better bargaining power with suppliers, resulting in better working capital management. The Company's ability to improve asset utilization enables it to achieve higher operating leverage and amortize overheads on a wider base. Additionally, the Company continues to invest in advanced technologies to improve operational efficiencies and work processes in its operations, thereby ensuring integrated operational data from manufacturing, planned procurement and superior tracking of transportation of the Company's products.
Consumer Preference Risk	Failure to adapt to changing consumer health trends and address misconceptions relating to impact of usage of plastic products on the health may adversely impact demand.	RPPL sales team works closely with management to ascertain the changing consumer habits and constantly focus on product innovation and expanding range of products which are safe to use and eco-friendly.
Regulatory Risk	The company faces regulatory risks including compliance with stringent environmental standards, navigating industry-specific regulations, and adapting to frequent regulatory changes. Regulations concerning consumer health and the potential imposition of discriminatory taxes or packaging waste recovery requirements on the Company's products could negatively affect the business.	RPPL proactively engages with different stakeholders in the industry, to develop sustainable packaging focused on protecting the environment and also waste recycling. Additionally, the Company's joint venture, Olive Ecopak Private Limited, focuses on manufacturing sustainable packaging products, which aligns with evolving regulations on environmental impact and consumer health.
Supply Chain Disruption Risk	The Company can face supply chain disruption risk arising from various sources including geopolitical events, natural disasters, fluctuations in raw material prices, logistical issues, and supplier-related challenges. Such disruptions can lead to delays, increased costs, and operational inefficiencies, affecting a company's ability to meet customer demands and maintain production continuity.	The company focuses on diversifying its supplier base and maintaining strategic inventory reserves to mitigate disruptions from geopolitical events or natural disasters.

RAJSHREE POLYPACK LIMITED

Environmental Impact Risk	Increasing regulatory scrutiny and consumer expectations regarding environmental sustainability present challenges for the industry. Compliance with environmental regulations, adoption of eco-friendly materials, and managing carbon footprint are critical priorities.	The Company continues to invest in sustainable practices and innovation to minimize environmental impact and enhance its corporate responsibility. Further the collaboration with Olive Ecopack strengthens RPPL's position as a sustainability-focused market leader, meeting the expectations of customers, regulators, and investors.

REPORT ON CORPORATE GOVERNANCE (As on March 31, 2025)

A. RPPL's Philosophy on Code of Governance

Corporate governance is a systematic process, driven by ethical conduct of the business and affairs of an organization aimed at promoting sustainable business and enhancing shareholder value in the long term. Corporate governance therefore, in essence, is a referral paradigm, comprising a mechanism to benchmark company's business and affairs to a combination of laws, regulations, procedures, implicit rules and good corporate practices, which ensure that a Company meets its obligations with the objective to optimize shareholder value and fulfill its responsibilities to the stakeholder community, comprising of customers, employees, shareholders, government and other societal segments.

RPPL's Governance philosophy is based on trusteeship and for promoting and maintaining integrity, transparency and accountability, across all business practices. As a corporate citizen, our business fosters a culture of ethical behavior and disclosures aimed at building trust of all stakeholders, such as shareholders, customers, suppliers, financiers, government and the community. This philosophy is built upon a rich legacy of fair, transparent and effective governance, and led by strong emphasis on human values, individual dignity and adherence to honest, ethical and professional conduct.

The Company believes that a sound governance discipline also enables the Board of Directors ("**Board**") to direct and control the affairs of the Company in an effective manner and maximize stakeholder value, including the society at large. We at RPPL believe that this is an ongoing journey for sustainable value creation for all stakeholders and we continuously endeavor to improve upon our practices in line with the changing demands of the business. RPPL adopts innovative approaches for leveraging all its resources and encourages a spirit of conversion of opportunities into achievements. The RPPL's Code of Business Conduct & Ethics and the Company's Code of Conduct for Prevention of Insider Trading are an extension of our values and reflect our commitment to ethical business practices, integrity and regulatory compliances.

Keeping in view the Company's size, reach, complexity of operations and corporate tradition, the Corporate Governance framework is based on the following main principles:

- Appropriate composition and size of the Board, with each member bringing in expertise in their respective domain;
- Timely and adequate flow of information to the members of the Board and its Committees for meaningful and focused discussions at the meetings to enable them discharge their fiduciary duties;
- Strategic supervision, monitoring and guidance by the Board which is made up of appropriate size, experience and commitment to discharge their responsibilities;
- Independent verification of Company's financial reporting from time to time and on quarterly basis;
- Timely and balanced disclosure of all material information; and disclosure of all deviations, if any, to all stakeholders and equitable and fair treatment to all the stakeholders (including employees, customers, vendors and investors);
- Compliance with applicable laws, rules, regulations and guidelines with transparency and defined accountability and
- Proper business conduct by the Board members, senior management and employees.

In line with this philosophy, the Company and its Board continuously strive for excellence through adoption of best governance and disclosure practices. The Board continuously strive to play an active role in fulfilling its fiduciary obligation to shareholders by efficiently overseeing management functions to ensure their effectiveness in delivering shareholder value and societal expectations, with ethical and responsible business conduct. The governance framework ensures its effectiveness through an efficient system of timely disclosures and transparent business practices.

Your Company confirms compliance to the Corporate Governance requirements as enshrined in the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("**SEBI Listing Regulations**"), the details of which for the financial year ended March 31, 2025 is as set out hereunder:

L. INVESTOR SAFEGUARDS AND OTHER INFORMATION

i) Dematerialization of shares

Shareholders are requested to convert their physical holdings to demat / electronic form through any of the registered Depository Participants (DPs) to avoid the hassles involved in dealing in physical shares such as possibility of loss, mutilation, etc. and also to ensure safe and speedy transaction in respect of the shares held.

ii) National Electronic Clearing Services (NECS) / Electronic Clearing Services (ECS) mandate

NECS / ECS facility ensures timely remittance of dividend without possibility of loss / delay in postal transit. Shareholders holding shares in electronic form may register their NECS / ECS details with the respective DPs and shareholders holding shares in physical form may register their NECS / ECS details with Registrar and Share Transfer Agent to receive dividends, if declared, via NECS / ECS mode.

iii) Timely Encashment of Dividends

In respect of the shareholders who have either not opted for NECS / ECS mandate or do not have such a facility with their banker, are requested to encash dividends promptly to avoid the inconvenience of writing to Company's RTA thereafter for revalidation of dividend warrants.

iv) Transfer of unclaimed dividend to Investor Education and Protection Fund (IEPF)

According to the provisions of the Act, the amount of dividend remaining unclaimed for a period of 7(seven) years from the date of its disbursement, has to be transferred to the Investor Education and Protection Fund ("IEPF"), maintained by the Government of India. Following are the details of the unclaimed dividend. If not claimed within 7(seven) years, then the same will be transferred to the IEPF in accordance with the Schedule given below:

RAJSHREE POLYPACK LIMITED

INDEPENDENT AUDITOR'S REPORT

To the Members of Rajshree Polypack Limited

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying standalone financial statements of Rajshree Polypack Limited (the "Company"), which comprise the standalone balance sheet as at March 31, 2025, and the standalone statement of Profit and Loss (including other comprehensive income), and the standalone statement of changes in equity and the standalone statement of cash flows for the year then ended, and notes to the standalone financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as the "Standalone Financials Statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, and its profit and other comprehensive income, changes in equity and its cash flows for the year ended on that date..

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the standalone Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the standalone financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements of the current period. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No	Key Audit Matter	How the Key Audit Matter was addressed in our audit
1	Revenue Recognition	
	<p>Refer Note 2 of standalone financial statements with respect to the accounting policies followed by the Company for recognizing revenue from sale of goods.</p> <p>The Company recognized revenues amounting to Rs. 32,778.57 lakhs for the year ended March 31, 2025, as disclosed in Note 32 to the Standalone financial statements.</p> <p>Revenue from the sale of goods are recognized when control of the goods has been transferred to the customers and when there are no other unfulfilled obligation. Depending on the contractual terms with the customers, this can be either at the time of dispatch or delivery of goods.</p> <p>Revenue Recognition involves significant management judgement in determining the timing of revenue recognition, based on transfer of control, due to the varying terms and conditions with different customers and has accordingly been identified as a Key Audit matter.</p>	<p>Our audit procedures in respect of this area, among others, included the following:</p> <ol style="list-style-type: none"> 1. We evaluated the Company's accounting policies pertaining to revenue recognition for sale of goods and assessed compliance with the policies in terms of Ind AS 115 – Revenue from contracts with customers. 2. We understood the revenue recognition process, evaluated the design and implementation of internal controls relating to revenue recognized. 3. We selected samples and tested the operating effectiveness of internal controls, relating to transfer of control. We carried out a combination of procedures involving enquiry, observation and inspection of evidence in respect of operation of these controls 4. We tested the relevant information technology general controls, automated controls, and the related information used in recording and disclosing revenue. 5. In respect of the selected sample of transactions: <ul style="list-style-type: none"> • We obtained the customer contracts and understood the terms and conditions including delivery and shipping terms. • We tested whether the revenue is recognized upon transfer of control to customer. • We tested on a sample basis (including for sales near to the period end) shipping documents/customer acknowledgment, as applicable.

RAJSHREE POLYPACK LIMITED

Information other than the Financials Statements and Auditor's Report Thereon

The Company's Management and Board of Directors are responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility and Sustainability Report, Corporate Governance, Shareholder's Information and Director's report, but does not include the standalone financial statements and our auditor's report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the standalone financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Standalone Financials Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, including other comprehensive income, changes in equity and cash flow of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, the management and the Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about

whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to standalone financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Materiality is the magnitude of misstatement in the Standalone Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Standalone financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work;

RAJSHREE POLYPACK LIMITED

and (ii) to evaluate the effect of any identified misstatement in the Standalone financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matter

The Standalone Financials Statements of the Company for the year ended 31st March 2024, were audited by another auditor who expressed an unmodified opinion on those statements.

Report on Other Legal and Regulatory Requirements

1. Annexure A' TO THE INDEPENDENT AUDITOR'S REPORT

(Referred to in paragraph 1 under 'Report on Other Legal and Regulatory Requirements' of our report to the members of Rajshree Polypack Limited of even date)

To the best of our information and according to the explanations provided to us by the company and the books of accounts and record examined by us in the normal course of audit, we state that:

- i. a. A.) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment, investment property and relevant details of right –to- use assets.
 - B.) The Company has maintained proper records showing full particulars of intangible assets.
- b. According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has a regular programme of physical verification of its Property, Plant and Equipment by which all property, plant and equipment are verified in a phased manner over a period of 3 years. In accordance with this programme, certain property, plant and equipment were verified during the year. In our opinion, this periodicity of physical verification is reasonable having regard to the size of the Company and the nature of its assets. No discrepancies were noticed on such verification.
- c. According to the information and explanations given to us, the title deeds of immovable properties (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee) as disclosed in the standalone financial statements are held in the name of the Company. The title deeds of immovable properties aggregating to Rs. 69.48 lakhs as at March 31, 2025, are pledged with the banks original copies are not available with the Company.
- d. According to the information and explanations given to us, the Company has not revalued its Property, Plant and Equipment (including Right of Use assets) and intangible assets during the year. Accordingly, the provisions stated under clause 3(i)(d) of the Order are not applicable to the Company.
- e. According to the information and explanations given to us, no proceeding has been initiated or are pending against the Company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder. Accordingly, the provisions stated under clause 3(i)(e) of the Order are not applicable to the Company.
- ii. a. The inventory (excluding stocks with third parties) has been physically verified by the management during the year. In respect of inventory lying with third parties, written confirmations have been obtained. In our opinion, the frequency, coverage and procedure of

such verification is reasonable and appropriate, having regard to the size of the Company and the nature of its operations. The discrepancies noticed on physical verification of inventory as compared to book records were not 10% or more in aggregate for each class of inventory.

- b. The Company has been sanctioned working capital limits in excess of Rs. five crores in aggregate from banks on the basis of security of current assets. Based on the records examined by us in the normal course of audit of the standalone financial statements, the quarterly returns are filed with such banks are not in agreement with the books of accounts of the company. Details of the same are mentioned in note no 50 (xi) of the financial statements.
- iii. a) According to the information and explanations provided to us, the Company has granted Loans and provided guarantee to its Jointly Controlled Entity.

The details of which are as under:

(INR in Lakhs)

	Guarantees	Loans
Aggregate amount granted/provided during the year	600.00	1,480.00
- Jointly controlled entity		
Balance Outstanding as at balance sheet date in respect of above cases	11,800.00	3,350.00
- Jointly controlled entity		

- (b) According to the information and explanations given to us and based on the audit procedures performed by us, we are of the opinion that the investments made, guarantees provided, and terms and conditions in relation to grant of loans, investments made, guarantees provided and securities given are not prejudicial to the interest of the Company.
- (c) In case of the loans, schedule of repayment of principal and payment of interest have been stipulated and the borrowers have been regular in the repayment of the principal and payment of interest.
- (d) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no amounts overdue for more than ninety days in respect of loans, granted by the Company.
- (e) According to the information explanation provided to us, loan granted has not fallen due during the year. Accordingly, the provisions stated under clause 3(iii)(e) of the Order are not applicable to the Company.
- (f) According to the information explanation provided to us, the Company has not granted loans during the year which are repayable on demand or of which terms and period of repayment was not specified. Accordingly, the provisions stated under clause 3(iii)(f) of the Order are not applicable to the Company.

RAJSHREE POLYPACK LIMITED

- iv. According to the information and explanations given to us, the Company has complied with the provisions of Section 185 and 186 of the Companies Act, 2013, in respect of loans, investments, guarantees and security made.
- v. According to the information and explanations given to us, the Company has neither accepted any deposits from the public nor any amounts which are deemed to be deposits, within the meaning of Sections 73, 74, 75 and 76 of the Companies Act, 2013 and the rules framed there under. Accordingly, the provisions stated under clause 3(v) of the Order is not applicable to the Company.
- vi. Pursuant to the rules made by the Central Government of India, the Company is required to maintain cost records as specified under Section 148(1) of the Companies Act, 2013 in respect of its products. We have broadly reviewed the same, and are of the opinion that, *prima facie*, the prescribed accounts and records have been made and maintained. We have not, however, made a detailed examination of the records with a view to determine whether they are accurate or complete.
- vii. a. According to the information and explanations given to us and the records of the Company examined by us, in our opinion, undisputed statutory dues including Goods and Services tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess, and other statutory dues have *generally been regularly* deposited with the appropriate authorities during the year, though there has been a slight delay in a few cases.
- There was no undisputed amount payable in respect Goods and Services Tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and other material statutory dues in arrears as at 31st March, 2025 for a period of more than six months from the date they became payable
- b. There are no dues of Goods and Services Tax, provident fund, employees' state insurance, Income Tax, Sales Tax Wealth Tax, Service Tax, Duty of Custom, Duty of Excise, Value Added Tax or Cess and other statutory dues to the extent applicable to the Company which have not been deposited on account of any dispute with the appropriate authorities except as mentioned below:
- | Name of the statute | Nature of dues | Amount demanded Rs. In Lakhs | Amount Paid Rs. | Period to which the amount relates | Forum where dispute is pending | Remarks, if any |
|----------------------|----------------|------------------------------|-----------------|------------------------------------|--------------------------------------|-----------------|
| Income Tax Act, 1961 | Income Tax | 163.26 | - | FY 2018-19 | Commissioner of Income tax (Appeals) | Appeal filed |
- viii. According to the information and explanations given to us, there are no transactions which are not accounted in the books of account which have been surrendered or disclosed as income during the year in Income-tax Assessment of the Company. Accordingly, the provision stated under clause 3(viii) of the Order is not applicable to the Company.
- ix. a. In our opinion and according to the information and explanations given to us and the records of the Company examined by us, the Company has not defaulted in repayment of loans or borrowings or in payment of interest thereon to any lender.
- b. According to the information and explanations given to us, we report that the Company has not been declared willful defaulter by any bank or financial institution or government or any government authority.
- c. In our opinion and according to the information and explanations provided to us, money raised by way of term loans during the year have been applied for the purpose for which they were raised.
- d. According to the information and explanations given to us, and on an overall examination of the standalone financial statements of the Company, we report that no funds raised on short-term basis have been used for long term purposes by the Company.
- e. According to the information explanation given to us and on the basis of audit procedures performed by us, we report that the Company has not taken any funds from an any entity or person on account of or to meet the obligations of its jointly controlled entity.
- f. According to the information and explanations given to us and audit procedures performed by us, we report that the Company has not raised loans during the year on the pledge of securities held in its jointly controlled entity. Accordingly, reporting under Clause 3(ix)(f) of the order is not applicable to the Company.
- x. a. In our opinion and according to the information and explanations given to us, the Company did not raise any money by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, the provisions stated under clause 3(x)(a) of the Order are not applicable to the Company.
- b. In our opinion and according to the information and explanations given to us, the Company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year. Accordingly, reporting under clause 3(x)(b) of the Order is not applicable.
- xi. a. Based on our examination of the books and records of the Company, carried out in accordance with the generally accepted auditing practices in India, and according to the information and explanations given to us, we report that no fraud by the Company or on the Company has been noticed or reported during the year in the course of our audit.

Accordingly, the provisions stated under clause 3(xi)(b) of the Order is not applicable to the Company.

RAJSHREE POLYPACK LIMITED

- c. As represented to us by the management, there are no whistle blower complaints received by the company during the year.
- xii. The Company is not a Nidhi Company. Accordingly, reporting under clause 3(xii) of the Order is not applicable.
- xiii. According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with Sections 177 and 188 of the Companies Act, 2013, where applicable and details of such transactions have been disclosed in the standalone financial statements as required by the applicable Indian accounting standards.
- xiv. a. In our opinion and based on our examination, the Company has an internal audit system commensurate with the size and nature of its business.
- b. The company has conducted the internal audit for only first six months for the year ended March 31,2025 and there were no material observations or discrepancies identified.
- xv. According to the information and explanations given to us, in our opinion, during the year, the Company has not entered into any non-cash transactions with directors or persons connected with its directors and accordingly, the reporting on compliance with the provisions of Section 192 of the Companies Act, 2013 in clause 3(xv) of the Order is not applicable to the Company.
- xvi. a. The Company is not required to be registered under Section 45-IA of the Reserve Bank of India Act, 1934. Accordingly, clause 3(xvi)(a) of the Order is not applicable.

Accordingly, the provisions stated under clause 3(xvii) of the Order are not applicable to the Company.
- xviii. There has been no resignation of the statutory auditors during the year and accordingly reporting under clause 3(xviii) of the Order is not applicable.
- xix. According to the information and explanations given to us and on the basis of the financial ratios (as disclosed in note 53 to the standalone financial statements), ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- xx. According to the information and explanations given to us and based on our verification, the provisions of Section 135 of the Companies Act, 2013, are applicable to the Company. The Company has made the required contributions during the year and there are no unspent amounts which are required to be transferred either to a Fund specified in schedule VII of the Companies Act, 2013 or to a Special Account as per the provisions of Section 135 of the Companies Act, 2013 read with schedule VII to the Companies Act, 2013. Accordingly, reporting under clause 3(xx)(a) and 3(xx)(b) of the Order is not applicable to the Company.
- xxi. The reporting under clause 3(xxi) of the Order is not applicable in respect of audit of standalone financial statements. Accordingly, no comment in respect of the said Clause has been included in the report.

RAJSHREE POLYPACK LIMITED

“Annexure B” TO THE INDEPENDENT AUDITOR’S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of Rajshree Polypack Limited (the “Company”) as of March 31, 2025 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Company’s management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgment,

including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of standalone financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of standalone financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the standalone financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. However certain areas need further improvement such as designing the “documentation

RAJSHREE POLYPACK LIMITED

on internal financial control" by way of identifying significant accounts, incorporating the process flow by which the transactions are initiated, authorized, processed, recorded and reported at all levels, supporting information, procedure how the system is integrated at all levels to capture the transactions that related to financial statement and defining the control related

to information technology so as to full fill objectives of control criteria established at company. However, our opinion is not qualified in above respect.

Based on the nature of services and the time between the rendering of service and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current and noncurrent classification of assets and liabilities.

(d) Use of estimates

The preparation of financial statements in conformity with Ind AS requires the Management to make estimate and assumptions that affect the reported amount of assets and liabilities as at the Balance Sheet date, reported amount of revenue and expenses for the year and disclosures of contingent liabilities as at the Balance Sheet date. The estimates and assumptions used in the accompanying financial statements are based upon the Management's evaluation of the relevant facts and circumstances as at the date of the financial statements. Actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates, if any, are recognized in the year in which the estimates are revised and in any future years affected.

Estimates and assumptions:

The key assumptions concerning the future and other key sources of estimation uncertainty at the yearend date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

i) Defined benefit obligations

The cost of the defined benefit gratuity plan is determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, expected returns on plan assets and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

RAJSHREE POLYPACK LIMITED

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

The mortality rate is based on publicly available mortality tables for India. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases, discount rate and return on planned assets are based on expected future inflation rates for India

ii) **Income tax and Deferred Tax**

Deferred tax assets are not recognised for unused tax losses as it is not probable that taxable profit will be available against which the losses can be utilised. Significant management judgement/estimate is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

iii) **Impairment of financial assets**

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. In respect of trade receivables the Company applies the simplified approach permitted by Ind AS 109 - Financial Instruments, which requires expected lifetime losses to be recognised upon initial recognition of the receivables. For all other financial assets, expected credit losses are measured at an amount equal to the 12-months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

2.2 **Property, plant and equipment - Tangible**

Property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to Statement of Profit and Loss during the year in which they are incurred.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognized as at 1 April 2020 measured as per the Indian GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Depreciation methods, estimated useful lives

Depreciation is recognized (other than on capital work-in-progress) on a straight line method over the expected useful life of the asset and is charged to the Statement of Profit and Loss as per the requirement of Schedule II of the Companies Act, 2013. Depreciation on assets acquired / purchased, sold / discarded during the year is provided on a pro-rata basis from the date of each addition till the date of sale / retirement. Depreciation on sale from property plant and equipment is provided up to the date preceding the date of sale, deduction as the case may be. The estimated useful lives of assets are stated below:

Property, plant and equipment

Leasehold improvement*	Lease period
Buildings	30 Years
Leasehold Property	16 Years
Plant and Machinery	15 Years
Moulds & Dies	15 Years
Electric Installation	10 Years
Computers	3 Years
Fire Extinguishers	15 Years
Furniture & Fixtures	10 Years
Office & IT Equipments	5 Years
Vehicles - Motor Car	8 Years
Vehicles - Motor Bike	10 Years

* Leasehold improvements are amortized over the lease period, which corresponds with the useful lives of the assets.

Depreciation on addition to property plant and equipment is provided on pro-rata basis from the date of acquisition. Depreciation on sale/deduction from property plant and equipment is provided up to the date preceding the date of sale, deduction as the case may be. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in Statement of Profit and Loss under 'Other Income'.

Depreciation methods, useful lives and residual values are reviewed periodically at each financial year end and adjusted prospectively, as appropriate.

2.3 **Intangible Assets**

Intangible assets are stated at acquisition cost, net of accumulated amortization.

RAJSHREE POLYPACK LIMITED

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its intangible assets recognised as at 1 April 2020 measured as per the Indian GAAP and use that carrying value as the deemed cost of the intangible assets.

The Company amortized intangible assets over their estimated useful lives using the straight line method. The estimated useful lives of intangible assets are as follows:

Intangible assets

SAP Software	6 years
Other Software	3 years

Intangible assets with finite lives are assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

2.4 Foreign Currency Transactions

(a) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is the Company's functional and presentation currency.

(b) Transactions and balances

"On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction. Gains/Losses arising out of fluctuation in foreign exchange rate between the transaction date and settlement date are recognised in the Statement of Profit and Loss.

All monetary assets and liabilities in foreign currencies are restated at the year end at the exchange rate prevailing at the year end and the exchange differences are recognised in the Statement of Profit and Loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

2.5 Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- ▶ In the principal market for the asset or liability, or
- ▶ In the absence of a principal market, in the most advantageous market for the asset or liability accessible to the Company."

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. The Company's management determines the policies and procedures for fair value measurement such as derivative instrument.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- ▶ Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- ▶ Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- ▶ Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

2.6 Revenue Recognition

Sale of Product:

The Company manufactures and trades and sells a range of plastic packaging products. Revenue from the sale of goods is recognised on the basis of customer contracts and performance obligations contained therein. Revenue is recognised at a point in time when the control of goods is transferred to customer, this can be either at the time of dispatch or delivery of goods, depending on the contractual terms with the customers. Control lies with the customer if the customer can

RAJSHREE POLYPACK LIMITED

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

independently determine the use of and consume the benefit derived from goods or services. Revenue from delivery of goods is recognised at a point in time based on an overall assessment of the existence of a right to payment, the transfer of physical possession, the transfer of risks and rewards, and acceptance by the customer.

Revenue towards satisfaction of performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to the performance obligation. Transaction price is reduced by goods and service tax and for actual and expected sales deductions resulting from sales returns, rebates and discounts.

Sale of Service

Revenues from services are recognised as and when services are rendered and on the basis of contractual terms with the parties. The performance obligation in respect of professional services is satisfied over a period of time and acceptance of the customer.

Contract balances

Contract Asset

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Contract Liability

A contract liability is the Company's obligation to transfer goods or services to a customer, for which the Company has already received consideration from customers. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

Trade Receivable

A trade receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

D. Other Operating Revenue

a. Export incentives

Income from export incentives arising from duty drawback scheme, merchandise export incentive scheme are recognised on export of goods if the entitlements can be estimated with reasonable assurance and conditions precedent to claim are fulfilled.

b. Dividend & Interest Income

Dividend income is recognised when the Company's right to receive the payment is established by the reporting date.

Interest income is recognised using the effective interest rate (EIR) method. Interest income is included in other income in the Statement of Profit and Loss.

C. Rental Income

Rental income arising from operating leases is accounted for on a straight - line basis over the lease terms and is included in other income in the Statement of Profit and Loss due to its non-operating nature.

d. Other Income

Other incomes are accounted on accrual basis.

2.7 Taxes

Tax expense for the year, comprising current tax and deferred tax, are included in the determination of the net profit or loss for the year.

(a) Current income tax

Current tax assets and liabilities are measured at the amount expected to be recovered or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the year end date. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

(b) Deferred tax

Deferred income tax is provided in full, using the balance sheet approach, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the year and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

RAJSHREE POLYPACK LIMITED

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognized in Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

2.8 Leases

The Company as a lessee

The Company's lease asset classes primarily consist of leases for Office Premises, Godowns, land and Buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- amounts expected to be payable by the group under residual value guarantees
- the exercise price of a purchase option if the group is reasonably certain to exercise that option, and

- payments of penalties for terminating the lease, if the lease term reflects the group exercising that option

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs
- restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Company is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Company as a Lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

2.9 Inventories

Inventories are valued at lower of cost and net realisable value, after providing cost of obsolescence, if any. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on the Weighted Average Method.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

Raw materials, packaging materials and stores and spare parts are valued at lower of cost and net realizable value. Cost includes purchase price, (excluding those subsequently recoverable by the enterprise from the concerned revenue authorities), freight inwards and other expenditure incurred in bringing such inventories to their present location and condition.

Raw materials, Components, Stores and Spares and Packing Material held for use in production of Inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost

RAJSHREE POLYPACK LIMITED

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

The cost of manufactured Inventories and Work-In-Process is the direct cost of manufacture plus appropriate allocated overheads.

The net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and estimated costs necessary to make the sale

The comparison of cost and net realisable value is made on an item by item basis.

2.10 Impairment of non-financial assets

The Company assesses at each year end whether there is any objective evidence that a non-financial asset or a group of non-financial assets is impaired. If any such indication exists, the Company estimates the asset's recoverable amount and the amount of impairment loss.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognized in Statement of Profit and Loss and reflected in an allowance account. When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through Statement of Profit and Loss.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit")."

2.11 Provisions and contingent liabilities

Provisions are recognized when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance sheet date.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

The Company records a provision for decommissioning costs. Decommissioning costs are provided at the present value of expected costs to settle the obligation using estimated cash flows and are recognized as part of the cost

of the particular asset. The cash flows are discounted at a current pre-tax rate that reflects the risks specific to the decommissioning liability. The unwinding of the discount is expensed as incurred and recognized in the statement of profit and loss as a finance cost. The estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset.

If the Company has a contract that is onerous, the present obligation under the contract is recognised and measured as a provision. However, before a separate provision for an onerous contract is established, the Company recognises any impairment loss that has occurred on assets dedicated to that contract.

An onerous contract is a contract under which the unavoidable costs (i.e., the costs that the Company cannot avoid because it has the contract) of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The unavoidable costs under a contract reflect the least net cost of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfil it. The cost of fulfilling a contract comprises the costs that relate directly to the contract (i.e., both incremental costs and an allocation of costs directly related to contract activities).

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

2.12 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks, cash on hand and short-term deposits net of bank overdraft with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purposes of the cash flow statement, cash and cash equivalents include cash on hand, cash in banks and short-term deposits net of bank overdraft.

2.13 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a) **Financial assets**

(i) **Initial recognition and measurement**

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

RAJSHREE POLYPACK LIMITED

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

(ii) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- a) at amortized cost; or
- b) at fair value through other comprehensive income; or
- c) at fair value through profit or loss.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows."

Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in finance income using the effective interest rate method (EIR).

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in Statement of Profit and Loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to Statement of Profit and Loss and recognized in other gains/ (losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss (FVTPL): Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. Interest income from these financial assets is included in other income.

Equity instruments:

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument- by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

(iii) Impairment of financial assets

In accordance with Ind AS 109, Financial Instruments, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on financial assets that are measured at amortized cost and FVOCI.

For recognition of impairment loss on financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If in subsequent years, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 months ECL.

Life time ECLs are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12 months ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the year end.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider

RAJSHREE POLYPACK LIMITED

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

all contractual terms of the financial instrument (including prepayment, extension etc.) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.

In general, it is presumed that credit risk has significantly increased since initial recognition if the payment is more than 30 days past due.

ECL impairment loss allowance (or reversal) recognized during the year is recognized as income/expense in the statement of profit and loss. In balance sheet ECL for financial assets measured at amortized cost is presented as an allowance, i.e. as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

(iv) **Derecognition of financial assets**

A financial asset is derecognized only when

- a) the rights to receive cash flows from the financial asset is transferred or
- b) retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the financial asset is transferred then in that case financial asset is derecognized only if substantially all risks and rewards of ownership of the financial asset is transferred. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

(b) **Financial liabilities**

(i) **Initial recognition and measurement**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and at amortized cost, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs.

(ii) **Subsequent measurement**

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognized in the Statement of Profit and Loss.

Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in Statement of Profit and Loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

(iii) **Derecognition**

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss as finance costs.

(c) **Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

2.14 **Employee Benefits**

(a) **Short-term obligations**

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the year in which the employees render the related service are recognized in respect of employees' services up to the end of the year and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

RAJSHREE POLYPACK LIMITED

NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

(b) Other long-term employee benefit obligations

(i) Defined contribution plan

Provident Fund: Contribution towards provident fund is made to the regulatory authorities, where the Company has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Company does not carry any further obligations, apart from the contributions made on a monthly basis which are charged to the Statement of Profit and Loss.

(ii) Defined benefit plans

Gratuity: The Company provides for gratuity, a defined benefit plan (the 'Gratuity Plan') covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognized in the other comprehensive income in the year in which they arise.

Compensated Absences: Accumulated compensated absences, which are expected to be availed within 12 months from the end of the year are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end.

Accumulated compensated absences, which are expected to be availed beyond 12 months from the end of the year end are treated as other long term employee benefits. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognized in the statement of profit and loss in the year in which they arise.

Leaves under define benefit plans can't be encashed.

(c) Share-based payments

Employees (including senior executives) of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions). The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model.

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in

equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Companies' best estimate of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

2.15 Equity share capital

Equity shares are classified as equity share capital. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2.16 Provision for Dividend

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

2.17 Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant relates to an asset, it is recognized as deferred income and is allocated to statement of profit and loss over the periods and in the proportions in which depreciation on those assets is charged.

2.18 Borrowing cost

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of the respective asset till such time the asset is ready for its intended use or sale. A qualifying asset is an asset which necessarily takes a substantial period of time to get ready for its intended use or sale. Ancillary cost of borrowings in respect of loans not

disbursed are carried forward and accounted as borrowing cost in the year of disbursement of loan. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest expenses calculated as per effective interest method, exchange difference arising from foreign currency borrowings to the extent they are treated as an adjustment to the borrowing cost and other costs that an entity incurs in connection with the borrowing of funds.

2.19 Segment reporting

Ind AS 108 establishes standards, for the way that business enterprises report information about operating segments and related disclosures about products, services and geographic areas, and major customers.

The primary reporting of the Company has been performed on the basis of business segments. Based on the "management approach" as defined in Ind AS 108, the Chief Operating Decision Maker (CODM) evaluates the Company's performance and allocates resources to manufacture of "Thermoformed Packaging Products" only hence it has been considered as the only reportable business segment and hence no separate financial disclosures provided in respect of its single business segment.

2.20 Statement of Cash Flows

Cash flows are reported using the indirect method, where by net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities are segregated.

2.21 Earnings Per Share

"Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Earnings considered in ascertaining the Company's earnings per share is the net profit or loss for the year after deducting preference dividends and any attributable tax thereto for the year. The weighted average number of equity shares outstanding during the year and for all the years presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares."

2.22 Recent accounting pronouncements

(i) Ind AS 117 Insurance Contracts

The Ministry of corporate Affairs (MCA) notified the Ind AS 117, Insurance Contracts, vide notification dated 12 August 2024, under the Companies (Indian Accounting Standards) Amendment Rules, 2024, which is effective from annual reporting periods beginning on or after 1 April 2024.

Ind AS 117 Insurance Contracts is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Ind AS 117 replaces Ind AS 104 Insurance Contracts. Ind AS 117 applies to all types of insurance contracts, regardless of the type of entities that issue them as well as to certain guarantees and financial instruments with discretionary participation features; a few scope exceptions will apply. Ind AS 117 is based on a general model, supplemented by:

- o A specific adaptation for contracts with direct participation features (the variable fee approach)
- o A simplified approach (the premium allocation approach) mainly for short-duration contracts

The application of Ind AS 117 had no impact on the Company's standalone financial statements as the Company has not entered any contracts in the nature of insurance contracts covered under Ind AS 117.

(ii) Amendment to Ind AS 116 Leases – Lease Liability in a Sale and Leaseback

The MCA notified the Companies (Indian Accounting Standards) Second Amendment Rules, 2024, which amend Ind AS 116, Leases, with respect to Lease Liability in a Sale and Leaseback.

The amendment specifies the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction, to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains.

The amendment is effective for annual reporting periods beginning on or after 1 April 2024 and must be applied retrospectively to sale and leaseback transactions entered into after the date of initial application of Ind AS 116.

The Company has not entered such transaction hence no impact on the financial statement.

2.23 Rounding off amounts

All amounts disclosed in financial statements and notes have been rounded off to the nearest lakhs as per requirement of Schedule III of the Act, unless otherwise stated.

Note: 47 Employee Stock Option Scheme (ESOP)

Rajshree Polypack Limited formulated Employee Stock Option Plan viz. "Rajshree Polypack Limited - Employee Stock Option Plan - 2022" (the "Plan") for the benefit of employees of the Company. The shareholders vide its special resolution dated August 4, 2022 passed through postal ballots approved the Plan. Under the said plan the Nomination and Remuneration Committee is empowered to grant 5,63,000 Employee Stock Options in form of equity shares linked to the completion of a minimum period of continued employment to the eligible employees of the Company, monitored and supervised by the Board of Directors. The employees can purchase equity shares by exercising the options as vested at the price specified in the grant. Once vested, the options remain exercisable for a period of 2 years.

Options are granted under the plan for no consideration and carry no dividend or voting rights. When exercisable, each option is convertible into 1 number of equity share. The exercise price of the share options is equal to the Face value of the underlying shares on the date of grant. There are no cash settlement alternatives for the employees.

The Committee granted 16,500 options on February 6, 2023, 3,900 options on October 31, 2023, each stock option is exercisable into one equity share of face value of Rs. 10 each. Further The Committee granted 9500 options on February 5, 2025, each stock option is exercisable into one equity share of face value of Rs. 5 each.

Note: * (i) 'Investments - Non-current - is classified in Level 1 of Fair Value Hierarchy

(b) Fair valuation techniques

The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

RAJSHREE POLYPACK LIMITED**NOTES TO STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025****(₹ in Lakhs)**

The management assessed that fair value of Trade receivables (net), Cash and cash equivalents, Other bank balances, Loans - current, Other financial asset - current, Borrowings - Current, Trade payables and Other financial liabilities - current approximate their carrying amounts largely due to the short-term maturities of these instruments.

The amortized cost using effective interest rate (EIR) of non-current financial assets consisting of security deposits are not significantly different from the carrying amount. The impact of fair value on non-current borrowing, non-current security deposits and non-current term deposits is not material and therefore not considered for above disclosure.

(c) Fair value hierarchy

Financial assets and financial liabilities are measured at fair value in the financial statement and are grouped into three levels of a fair value hierarchy. The three Levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1 : Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2 : Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3 : Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

Note: 55 Risk management framework

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's financial risk management policy is set by the Board. The Company is exposed to various financial risks. These risks are categorised into market risk, credit risk and liquidity risk.

The Company has exposure to the following risks arising from financial instruments:

- Credit risk;
- Liquidity risk;
- Market risk

(a) Credit risk :

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and other financial instruments.

Trade receivable

Customer credit risk is managed by the business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. To manage trade receivable, the Company periodically assesses the financial reliability of customers, taking into account the financial conditions, economic trends, analysis of historical bad debts and aging of such receivables. For receivables, as a practical expedient, the Company computes expected credit loss allowance based on a provision matrix. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forward-looking estimates.

The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 54. The Company does not hold collateral as security.

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the management in accordance with the Company's policy. Counterparty credit limits are reviewed by the management on an annual basis, and may be updated throughout the year / period. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

(b) Liquidity risk :

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to Company's reputation.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows to ensure it has sufficient cash to meet operational needs. Such forecasting takes into consideration the Company's debt financing plans, covenant compliance and compliance with internal statement of financial position ratio targets.

Trade payables	1,509.21	-	-	1,509.21
Lease liabilities	167.46	593.85	549.01	1,310.32

(c) Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Company's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. The Company is exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of certain commodities. Thus, its exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities. The objective of market risk management is to avoid excessive exposure in revenues and costs.

(i) Interest Rate Risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

Exposure to interest rate risk

Particulars	As at 31st March, 2025	As at 31st March, 2024
Fixed rate instruments		
- Borrowings	57.09	72.71
Floating rate instruments		
- Borrowings	3,278.21	1,973.70
Total	3,335.30	2,046.41

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Fair value sensitivity analysis for floating-rate instruments

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, is as follows:

Effect	Increase/ (decrease) in basis points	Effect on profit before tax	
		As at 31st March, 2025	As at 31st March, 2024
INR - Increase	25.00	8.20	4.93
INR - Decrease	(25.00)	(8.20)	(4.93)

(ii) Foreign currency exposure

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations will arise.

Note: 56 Capital risk management

The Company manages its capital to ensure that it will be able to continue as a going concern so, that they can continue to provide returns for shareholders and benefits for other stakeholders and maintain an optimal capital structure to reduce cost of capital. The Company manages its capital structure and make adjustments to, in light of changes in economic conditions, and the risk characteristics of underlying assets. In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the borrowings that define the capital structure requirements.

Consistent with others in the industry, the Company monitors capital on the basis of the gearing ratio. The ratio is calculated as net debt divided by equity. Net debt is calculated as total borrowing (including current and non-current terms loans less cash and bank balances as shown in the balance sheet).

The Company monitors capital using 'Total Debt' to 'Equity'. The Company's Total Debt to Equity are as follows:

Particulars	As at 31st March, 2025	As at 31st March, 2024
Total debt*	10,397.14	7,346.18

RAJSHREE POLYPACK LIMITED

INDEPENDENT AUDITOR'S REPORT

To the Members of Rajshree Polypack Limited

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the accompanying Consolidated financial statements of Rajshree Polypack Limited (the "Holding Company") and its jointly controlled entity which comprise the Consolidated Balance Sheet as at March 31, 2025, and the Consolidated Statement of Profit and Loss (including other comprehensive income), the Consolidated Statement of Changes in Equity and the Consolidated Statement of Cash Flows for the year then ended, and notes to the Consolidated Financial Statements, including material accounting policy and the other explanatory information (hereinafter referred to as the "Consolidated Financial Statements").

In our opinion and to the best of our information and according to the explanations given to us, and based on consideration of reports of other auditors on separate financial statements and on the other financial information of jointly controlled entity, the aforesaid Consolidated financial statements give the information required by the Companies Act, 2013 (the "Act") in the manner so required and give a true and fair view in conformity with the Indian Accounting Standards prescribed under Section 133 of the act read with Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS") and other accounting principles generally accepted in India, of their consolidated state of affairs of the Holding Company and its jointly controlled entity as at March 31, 2025, of consolidated profit and other comprehensive

income, consolidated changes in equity and its consolidated cash flows for the year then ended.

Basis for Opinion

We conducted our audit of the consolidated financial statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Holding Company and its jointly controlled entity in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India ("ICAI") together with the ethical requirements that are relevant to our audit of the Consolidated financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained and on consideration of audit reports of other auditors referred to in "Other Matters" section below is sufficient and appropriate to provide a basis for our opinion on the Consolidated financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Consolidated financial statements of the current period. These matters were addressed in the context of our audit of the Consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Sr. No	Key Audit Matter	How the Key Audit Matter was addressed in our audit
1	Revenue Recognition	
	<p>Refer Note 2 of consolidated financial statements with respect to the accounting policies followed by the Company for recognizing revenue from sale of goods.</p> <p>The Company recognized revenues amounting to Rs. 32,778.57 lakhs for the year ended March 31, 2025, as disclosed in Note 32 to the Consolidated financial statements.</p> <p>Revenue from the sale of goods are recognized when control of the goods has been transferred to the customers and when there are no other unfulfilled obligation. Depending on the contractual terms with the customers, this can be either at the time of dispatch or delivery of goods.</p> <p>Revenue Recognition involves significant management judgement in determining the timing of revenue recognition, based on transfer of control, due to the varying terms and conditions with different customers and has accordingly been identified as a Key Audit matter.</p>	<p>Our audit procedures in respect of this area, among others, included the following:</p> <ol style="list-style-type: none"> 1. We evaluated the Company's accounting policies pertaining to revenue recognition for sale of goods and assessed compliance with the policies in terms of Ind AS 115 – Revenue from contracts with customers. 2. We understood the revenue recognition process, evaluated the design and implementation of internal controls relating to revenue recognized. 3. We selected samples and tested the operating effectiveness of internal controls, relating to transfer of control. We carried out a combination of procedures involving enquiry, observation and inspection of evidence in respect of operation of these controls. 4. We tested the relevant information technology general controls, automated controls, and the related information used in recording and disclosing revenue. 5. In respect of the selected sample of transactions: <ul style="list-style-type: none"> • We obtained the customer contracts and understood the terms and conditions including delivery and shipping terms. • We tested whether the revenue is recognized upon transfer of control to customer. • We tested on a sample basis (including for sales near to the period end) shipping documents/customer acknowledgment, as applicable.

Information other than the Financials Statements and Auditor's Report Thereon

The Holding Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Board's Report including Annexures to Board's Report, Business Responsibility Report, Corporate Governance and Shareholder's Information, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the Consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard

Management's Responsibilities for the Consolidated Financial Statements

The Holding Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Consolidated financial statements that give a true and fair view of the Consolidated financial position, consolidated financial performance, including other comprehensive income, consolidated changes in equity and consolidated cash flows of the holding company and its jointly controlled entity in accordance with the accounting principles generally accepted in India. The respective Board of Directors of the companies included in the holding company and its jointly controlled entity are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the holding company and of its jointly controlled entity for preventing and detecting frauds and other irregularities; the selection and application of appropriate accounting policies; making judgements and estimates that are responsible and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness that give a true and fair view and are free from material misstatements, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid

In preparing the Consolidated financial statements, the respective Board of Directors of the Companies included in the Holding Company and its jointly controlled entity are responsible for assessing the ability of the holding company and its jointly controlled entity to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the holding company or to cease operations, or has no realistic alternative but to do so.

The respective Board of Directors of the companies included in the Holding Company and its jointly controlled entity are also responsible for overseeing the company's financial reporting process of each company.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the Consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Consolidated financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3) (i) of the Act, we are also responsible for expressing our opinion on whether the Company and its Jointly controlled entity incorporated in India, has adequate internal financial controls with reference to Consolidated financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the holding company and its jointly controlled entity to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the holding company and its jointly controlled entity to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Consolidated financial statements, including the

RAJSHREE POLYPACK LIMITED

disclosures, and whether the Consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Holding Company and its jointly controlled entity to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

Materiality is the magnitude of misstatement in the Consolidated Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the consolidated financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatement in the Consolidated financial statements.

We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statement of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters:

The consolidated financial statements include the Holding Company share of net loss (including total other comprehensive income) of Rs.1,133.58 lakhs for the year ended March 31, 2025, as considered in the consolidated financial statements, in respect of one jointly controlled entity, whose financial statements have not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished

to us by the Management and our opinion on the consolidated financial statements, in so far as it relates to the amounts and disclosures included in respect of this jointly controlled entity, and our report in terms of sub-section (3) of Section 143 of the Act, in so far as it relates to the aforesaid jointly controlled entity, is based solely on the reports of the other auditors.

The consolidated financial statements of the Company for the year ended 31st March 2024, were audited by another auditor who expressed an unmodified opinion on those statements.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below is not modified in respect of the above matter with respect to our reliance on the work done and the reports of the other auditors.

“Annexure A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1(g) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Member of Rajshree Polypack Limited of even date)

Report on the Internal Financial Controls with reference to Consolidated Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

In conjunction with our audit of consolidated financial statements of the Company as of and for the year ended March 31, 2025, we have audited the internal financial controls with reference to Consolidated Financial Statement of Rajshree Polypack Limited (hereinafter referred to as the “Holding Company”) which includes the internal financial controls over financial reporting of the Holding Company’s and its jointly controlled entity, which is company incorporated in India, as of that date.

Management’s Responsibility for Internal Financial Controls

The respective board of directors of the holding company and jointly controlled entity are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (‘ICAI’). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors’ Responsibility

Our responsibility is to express an opinion on the internal financial controls with reference to Consolidated Financial Statements of the Holding Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India (“ICAI”) and the Standards on Auditing, prescribed under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls with reference to Consolidated Financial Statements. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to Consolidated Financial Statements and their operating effectiveness. Our audit of internal financial controls with reference to Consolidated Financial Statements includes obtaining and understanding of internal financial control with reference to Consolidated Financial Statement, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls with reference to Consolidated Financial Statements of the Companies, which are companies incorporated in India.

Meaning of Internal Financial Controls with reference to Consolidated Financial Statements

A company’s internal financial control with reference to Consolidated Financial Statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial control with reference to Consolidated Financial Statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of consolidated financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the consolidated financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting with reference to Consolidated Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to Consolidated Financial Statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to Consolidated Financial Statements to future periods are subject to the risk that the internal financial

RAJSHREE POLYPACK LIMITED

control over financial reporting with reference to Consolidated Financial Statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Holding Company and its jointly controlled entity, which are the companies incorporated in India, have, in all material respects, an adequate internal financial controls with reference to Consolidated Financial Statements and such internal financial controls with reference to consolidated financial statements were operating effectively as at March 31, 2025, based on the internal financial controls with reference to

consolidated financial statements criteria established by the respective company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the ICAI.

Other Matters

Our aforesaid report under section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting with reference to these consolidated financial statements of the holding company insofar as it relates to separate financial statement of jointly controlled entity, which is company incorporated in India, is based solely on the corresponding reports of the auditors of such companies incorporated in India

RAJSHREE POLYPACK LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

1. Corporate Information

"Rajshree Polypack Limited ("the Company") is a company incorporated in India under the provisions of Companies Act, 1956 on October 15, 2011. The Company was an SME and was listed on NSE Emerge in the year 2018 however, the Company has migrated its equity shares from SME Platform (NSE emerge) of National Stock Exchange of India to the Main board of National Stock Exchange of India w.e.f November 26, 2021. The registered address of the Company is located 503-504, Lodha Supremus Bldg., Wagle Estate, Thane (West)-400604.

The Company is engaged in the business of manufacturing and trading of "Plastic Packaging Product". The Company operates through its two manufacturing units.

The Financial Statements were approved for issue by the Board of Directors on May 26, 2025. The Financial Statements are presented in Indian Rupees (INR) and all values are rounded to the nearest Lakhs except where otherwise indicated.

2. Material accounting policies

Material accounting policies adopted by the company are as under:

2.1. Basis of Preparation of Financial Statements

(a) Statement of Compliance with Ind AS

"These financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under Section 133 of the Companies Act, 2013 (the "Act") read with the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment Rules, 2016.

The financial statements up to year ended 31 March 2021 were prepared in accordance with the accounting standards notified under the section 133 of the Act, read with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP).

Accounting policies have been consistently applied to all the years presented except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy hitherto in use.

(b) Basis of measurement

The financial statements have been prepared on a historical cost convention on accrual basis, except for the following material items that have been measured at fair value as required by relevant Ind AS:-

- i. Certain financial assets and liabilities measured at fair value (refer accounting policy on financial instruments)
- ii. Employee share based payment
- iii. Net defined benefit (asset) / Liability

(c) Classification between current and non-current

All assets and liabilities have been classified as current or non-current as per the Company's operating cycle and other criteria set out in the Schedule III to the Companies Act, 2013. Based on the nature of services and the time between the rendering of service and their realization in cash and cash equivalents, the Company has ascertained its operating cycle as twelve months for the purpose of current and noncurrent classification of assets and liabilities.

(d) Use of estimates

The preparation of financial statements in conformity with Ind AS requires the Management to make estimate and assumptions that affect the reported amount of assets and liabilities as at the Balance Sheet date, reported amount of revenue and expenses for the year and disclosures of contingent liabilities as at the Balance Sheet date. The estimates and assumptions used in the accompanying financial statements are based upon the Management's evaluation of the relevant facts and circumstances as at the date of the financial statements. Actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates, if any, are recognized in the year in which the estimates are revised and in any future years affected.

Estimates and assumptions:

The key assumptions concerning the future and other key sources of estimation uncertainty at the year end date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

i) Defined benefit obligations

The cost of the defined benefit gratuity plan is determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, future salary increases, expected returns on plan assets and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

The mortality rate is based on publicly available mortality tables for India. Those mortality tables

RAJSHREE POLYPACK LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

tend to change only at interval in response to demographic changes. Future salary increases, discount rate and return on planned assets are based on expected future inflation rates for India

ii) Income tax and Deferred Tax

Deferred tax assets are not recognised for unused tax losses as it is not probable that taxable profit will be available against which the losses can be utilised. Significant management judgement/estimate is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

iii) Impairment of financial assets

The Company assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost. The impairment methodology applied depends on whether there has been a significant increase in credit risk. In respect of trade receivables the Company applies the simplified approach permitted by Ind AS 109 - Financial Instruments, which requires expected lifetime losses to be recognised upon initial recognition of the receivables. For all other financial assets, expected credit losses are measured at an amount equal to the 12-months expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

2.2. Basis of consolidation

The consolidated financial statements comprise the financial statements of the Company and its subsidiaries as at 31 March 2024. Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee. Specifically, the Group controls an investee if and only if the Group has:

Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee)

Exposure, or rights, to variable returns from its involvement with the investee, and

The ability to use its power over the investee to affect its returns

Generally, there is a presumption that a majority of voting rights result in control. To support this presumption and when the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

The contractual arrangement with the other vote holders of the investee

Rights arising from other contractual arrangements

The Group's voting rights and potential voting rights

The size of the group's holding of voting rights relative to the size and dispersion of the holdings of the other voting rights holders

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary.

Consolidated financial statements are prepared using uniform accounting policies for like transactions and other events in similar circumstances.

The financial statements of all entities used for the purpose of consolidation are drawn up to same reporting date as that of the parent company, i.e., year ended on 31 March.

a. Investment in associates and joint ventures

The group holds an interest in a joint venture, Olive Ecopack Private Limited.

The financial statements of Olive Ecopack Private Limited. Limited are prepared for the same reporting period as the Group. The accounting policies of both companies are aligned with those of the Group.

Therefore, no adjustments are made when measuring and recognising the Group's share of the profit or loss of the investees after the date of acquisition.

A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The considerations made in determining whether significant influence or joint control are similar to those necessary to determine control over the subsidiaries.

The Group's investments in its joint venture are accounted for using the equity method. Under the equity method, the investment in a joint venture is initially recognised at cost. The carrying amount of the investment is adjusted to recognise changes in the Group's share of net assets of the joint venture since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is not tested for impairment individually.

RAJSHREE POLYPACK LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

The statement of profit and loss reflects the Group's share of the results of operations of the joint venture. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognised directly in the equity of the joint venture, the Group recognises its share of any changes, when applicable, in the statement of changes in equity. Unrealised gains and losses resulting from transactions between the Group and the associate or joint venture are eliminated to the extent of the interest in the associate or joint venture.

If an entity's share of losses of an associate or a joint venture equals or exceeds its interest in the associate or joint venture (which includes any long-term interest that, in substance, form part of the Group's net investment in the associate or joint venture), the entity discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture. If the associate or joint venture subsequently reports profits, the entity resumes recognising its share of those profits only after its share of the profits equals the share of losses not recognised.

The aggregate of the Group's share of profit or loss of an associate and a joint venture is shown on the face of the statement of profit and loss outside operating profit.

The financial statements of the joint venture are prepared for the same reporting period as the Group. When necessary, adjustments are made to bring the accounting policies in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an impairment loss on its investment in its joint venture. At each reporting date, the Group determines whether there is objective evidence that the investment in the joint venture is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the joint venture and its carrying value, and then recognises the loss as 'Share of profit of an associate and a joint venture' in the statement of profit and loss.

2.3 Property, plant and equipment - Tangible

Property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognized when replaced. All other repairs and maintenance are charged to Statement of Profit and Loss during the year in which they are incurred.

Advances paid towards the acquisition of property, plant and equipment outstanding at each balance sheet date is classified as capital advances under other non-current assets and the cost of assets not put to use before such date are disclosed under 'Capital work-in-progress'.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognized as at 1 April 2020 measured as per the Indian GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

Depreciation methods, estimated useful lives

Depreciation is recognized (other than on capital work-in-progress) on a straight line method over the expected useful life of the asset and is charged to the Statement of Profit and Loss as per the requirement of Schedule II of the Companies Act, 2013. Depreciation on assets acquired / purchased, sold / discarded during the year is provided on a pro-rata basis from the date of each addition till the date of sale / retirement. Depreciation on sale from property plant and equipment is provided up to the date preceding the date of sale, deduction as the case may be. The estimated useful lives of assets are stated below:

Property, plant and equipment

Leasehold improvement*	Lease period
Buildings	30 Years
Leasehold Property	16 Years
Plant and Machinery	15 Years
Moulds & Dies	15 Years
Electric Installation	10 Years
Computers	3 Years
Fire Extinguishers	15 Years
Furniture & Fixtures	10 Years
Office & IT Equipments	5 Years
Vehicles - Motor Car	8 Years
Vehicles - Motor Bike	10 Years

* Leasehold improvements are amortized over the lease period, which corresponds with the useful lives of the assets.

Depreciation on addition to property plant and equipment is provided on pro-rata basis from the date of acquisition. Depreciation on sale/deduction from property plant and equipment is provided up to the date preceding the date of sale, deduction as the case may be. Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in Statement of Profit and Loss under 'Other Income'.

RAJSHREE POLYPACK LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

Depreciation methods, useful lives and residual values are reviewed periodically at each financial year end and adjusted prospectively, as appropriate.

2.3 Intangible Assets

Intangible assets are stated at acquisition cost, net of accumulated amortization.

Transition to Ind AS

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its intangible assets recognised as at 1 April 2020 measured as per the Indian GAAP and use that carrying value as the deemed cost of the intangible assets.

The Company amortized intangible assets over their estimated useful lives using the straight line method. The estimated useful lives of intangible assets are as follows:

Intangible assets

SAP Software	6 years
Other Software	3 years

Intangible assets with finite lives are assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year end.

2.4 Foreign Currency Transactions

(a) Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in Indian rupee (INR), which is the Company's functional and presentation currency.

(b) Transactions and balances

"On initial recognition, all foreign currency transactions are recorded by applying to the foreign currency amount the exchange rate between the functional currency and the foreign currency at the date of the transaction. Gains/Losses arising out of fluctuation in foreign exchange rate between the transaction date and settlement date are recognised in the Statement of Profit and Loss.

All monetary assets and liabilities in foreign currencies are restated at the year end at the exchange rate prevailing at the year end and the exchange differences are recognised in the Statement of Profit and Loss.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss

arising on translation of non-monetary items measured at fair value is treated in line with the recognition of the gain or loss on the change in fair value of the item (i.e., translation differences on items whose fair value gain or loss is recognised in OCI or profit or loss are also recognised in OCI or profit or loss, respectively).

2.5 Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability, or

In the absence of a principal market, in the most advantageous market for the asset or liability accessible to the Company.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs. The Company's management determines the policies and procedures for fair value measurement such as derivative instrument.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

2.6 Revenue Recognition

Sale of Product:

The Company manufactures and trades and sells a range of plastic packaging products. Revenue from the sale of goods is recognised on the basis of customer contracts

RAJSHREE POLYPACK LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

and performance obligations contained therein. Revenue is recognised at a point in time when the control of goods is transferred to customer, this can be either at the time of dispatch or delivery of goods, depending on the contractual terms with the customers. Control lies with the customer if the customer can independently determine the use of and consume the benefit derived from goods or services. Revenue from delivery of goods is recognised at a point in time based on an overall assessment of the existence of a right to payment, the transfer of physical possession, the transfer of risks and rewards, and acceptance by the customer.

Revenue towards satisfaction of performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to the performance obligation. Transaction price is reduced by goods and service tax and for actual and expected sales deductions resulting from sales returns, rebates and discounts.

Sale of Service

Revenues from services are recognised as and when services are rendered and on the basis of contractual terms with the parties. The performance obligation in respect of professional services is satisfied over a period of time and acceptance of the customer.

Contract balances

Contract Asset

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Contract Liability

A contract liability is the Company's obligation to transfer goods or services to a customer, for which the Company has already received consideration from customers. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

Trade Receivable

A trade receivable is recognised if an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

D. Other Operating Revenue

a. Export incentives

Income from export incentives arising from duty drawback scheme, merchandise export incentive scheme are recognised on export of goods if the

entitlements can be estimated with reasonable assurance and conditions precedent to claim are fulfilled.

b. Dividend & Interest Income

Dividend income is recognised when the Company's right to receive the payment is established by the reporting date.

Interest income is recognised using the effective interest rate (EIR) method. Interest income is included in other income in the Statement of Profit and Loss.

c. Rental Income

Rental income arising from operating leases is accounted for on a straight - line basis over the lease terms and is included in other income in the Statement of Profit and Loss due to its non-operating nature.

d. Other Income

Other incomes are accounted on accrual basis.

2.7 Taxes

Tax expense for the year, comprising current tax and deferred tax, are included in the determination of the net profit or loss for the year.

(a) Current income tax

Current tax assets and liabilities are measured at the amount expected to be recovered or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the year end date. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realize the asset and settle the liability simultaneously.

(b) Deferred tax

Deferred income tax is provided in full, using the balance sheet approach, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in financial statements. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss). Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the year and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilize those temporary differences and losses.

RAJSHREE POLYPACK LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognized in Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

2.8 Leases

The Company as a lessee

The Company's lease asset classes primarily consist of leases for Office Premises, Godowns, land and Buildings. The Company assesses whether a contract contains a lease, at inception of a contract. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

At the date of commencement of the lease, the Company recognizes a right-of-use asset ("ROU") and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease.

Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- amounts expected to be payable by the group under residual value guarantees
- the exercise price of a purchase option if the group is reasonably certain to exercise that option, and

- payments of penalties for terminating the lease, if the lease term reflects the group exercising that option.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs
- restoration costs.

Right-of-use assets are generally depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Company is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Lease liability and ROU asset have been separately presented in the Balance Sheet and lease payments have been classified as financing cash flows.

The Company as a Lessor

Leases for which the Company is a lessor is classified as a finance or operating lease. Whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee, the contract is classified as a finance lease. All other leases are classified as operating leases.

2.9 Inventories

Inventories are valued at lower of cost and net realisable value, after providing cost of obsolescence, if any. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost. Cost is determined on the Weighted Average Method.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

Raw materials, packaging materials and stores and spare parts are valued at lower of cost and net realizable value. Cost includes purchase price, (excluding those subsequently recoverable by the enterprise from the concerned revenue authorities), freight inwards and other expenditure incurred in bringing such inventories to their present location and condition.

Raw materials, Components, Stores and Spares and Packing Material held for use in production of Inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost

RAJSHREE POLYPACK LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

The cost of manufactured Inventories and Work-In-Process is the direct cost of manufacture plus appropriate allocated overheads.

The net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and estimated costs necessary to make the sale

The comparison of cost and net realisable value is made on an item by item basis.

2.10 Impairment of non-financial assets

The Company assesses at each year end whether there is any objective evidence that a non-financial asset or a group of non-financial assets is impaired. If any such indication exists, the Company estimates the asset's recoverable amount and the amount of impairment loss.

An impairment loss is calculated as the difference between an asset's carrying amount and recoverable amount. Losses are recognized in Statement of Profit and Loss and reflected in an allowance account. When the Company considers that there are no realistic prospects of recovery of the asset, the relevant amounts are written off. If the amount of impairment loss subsequently decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, then the previously recognised impairment loss is reversed through Statement of Profit and Loss.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit")."

2.11 Provisions and contingent liabilities

Provisions are recognized when there is a present obligation as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and there is a reliable estimate of the amount of the obligation. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance sheet date.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as a finance cost.

The Company records a provision for decommissioning costs. Decommissioning costs are provided at the present value of expected costs to settle the obligation using estimated cash flows and are recognized as part of the cost

of the particular asset. The cash flows are discounted at a current pre-tax rate that reflects the risks specific to the decommissioning liability. The unwinding of the discount is expensed as incurred and recognized in the statement of profit and loss as a finance cost. The estimated future costs of decommissioning are reviewed annually and adjusted as appropriate. Changes in the estimated future costs or in the discount rate applied are added to or deducted from the cost of the asset.

If the Company has a contract that is onerous, the present obligation under the contract is recognised and measured as a provision. However, before a separate provision for an onerous contract is established, the Company recognises any impairment loss that has occurred on assets dedicated to that contract.

An onerous contract is a contract under which the unavoidable costs (i.e., the costs that the Company cannot avoid because it has the contract) of meeting the obligations under the contract exceed the economic benefits expected to be received under it. The unavoidable costs under a contract reflect the least net cost of exiting from the contract, which is the lower of the cost of fulfilling it and any compensation or penalties arising from failure to fulfil it. The cost of fulfilling a contract comprises the costs that relate directly to the contract (i.e., both incremental costs and an allocation of costs directly related to contract activities).

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made.

2.12 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks, cash on hand and short-term deposits net of bank overdraft with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purposes of the cash flow statement, cash and cash equivalents include cash on hand, cash in banks and short-term deposits net of bank overdraft.

2.13 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

(a) Financial assets

(i) Initial recognition and measurement

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

RAJSHREE POLYPACK LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

(ii) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

- a) at amortized cost; or
- b) at fair value through other comprehensive income; or
- c) at fair value through profit or loss.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows."

Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in finance income using the effective interest rate method (EIR).

Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses which are recognized in Statement of Profit and Loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in OCI is reclassified from equity to Statement of Profit and Loss and recognized in other gains/(losses). Interest income from these financial assets is included in other income using the effective interest rate method.

Fair value through profit or loss (FVTPL): Assets that do not meet the criteria for amortized cost or FVOCI are measured at fair value through profit or loss. Interest income from these financial assets is included in other income.

Equity instruments:

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading and contingent consideration recognised by an acquirer in a business combination to which Ind AS103 applies are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company makes such election on an instrument- by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

(iii) Impairment of financial assets

In accordance with Ind AS 109, Financial Instruments, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on financial assets that are measured at amortized cost and FVOCI.

For recognition of impairment loss on financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, lifetime ECL is used. If in subsequent years, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 months ECL.

Life time ECLs are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12 months ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the year end.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e. all shortfalls), discounted at the original EIR. When estimating the cash flows, an entity is required to consider

RAJSHREE POLYPACK LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

all contractual terms of the financial instrument (including prepayment, extension etc.) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument.

In general, it is presumed that credit risk has significantly increased since initial recognition if the payment is more than 30 days past due.

ECL impairment loss allowance (or reversal) recognized during the year is recognized as income/expense in the statement of profit and loss. In balance sheet ECL for financial assets measured at amortized cost is presented as an allowance, i.e. as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

(iv) Derecognition of financial assets

A financial asset is derecognized only when

- a) the rights to receive cash flows from the financial asset is transferred or
- b) retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the financial asset is transferred then in that case financial asset is derecognized only if substantially all risks and rewards of ownership of the financial asset is transferred. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognized.

(b) Financial liabilities

(i) Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss and at amortized cost, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of borrowings and payables, net of directly attributable transaction costs.

(ii) Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at fair value through profit or loss

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Gains or losses on liabilities held for trading are recognized in the Statement of Profit and Loss.

Borrowings

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in Statement of Profit and Loss when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

(iii) Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss as finance costs.

(c) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

1.14 Employee Benefits

(a) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the year in which the employees render the related service are recognized in respect of employees' services up to the end of the year and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

RAJSHREE POLYPACK LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

(b) Other long-term employee benefit obligations

(i) Defined contribution plan

Provident Fund: Contribution towards provident fund is made to the regulatory authorities, where the Company has no further obligations. Such benefits are classified as Defined Contribution Schemes as the Company does not carry any further obligations, apart from the contributions made on a monthly basis which are charged to the Statement of Profit and Loss.

(ii) Defined benefit plans

Gratuity: The Company provides for gratuity, a defined benefit plan (the 'Gratuity Plan') covering eligible employees in accordance with the Payment of Gratuity Act, 1972. The Gratuity Plan provides a lump sum payment to vested employees at retirement, death, incapacitation or termination of employment, of an amount based on the respective employee's salary. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognized in the other comprehensive income in the year in which they arise.

Compensated Absences: Accumulated compensated absences, which are expected to be availed within 12 months from the end of the year are treated as short term employee benefits. The obligation towards the same is measured at the expected cost of accumulating compensated absences as the additional amount expected to be paid as a result of the unused entitlement as at the year end.

Accumulated compensated absences, which are expected to be availed beyond 12 months from the end of the year end are treated as other long term employee benefits. The Company's liability is actuarially determined (using the Projected Unit Credit method) at the end of each year. Actuarial losses/gains are recognized in the statement of profit and loss in the year in which they arise.

Leaves under define benefit plans can't be encashed.

(c) Share-based payments

Employees (including senior executives) of the Company receive remuneration in the form of share-based payments, whereby employees render services as consideration for equity instruments (equity-settled transactions). The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model.

That cost is recognised, together with a corresponding increase in share-based payment (SBP) reserves in equity, over the period in which the performance and/or service conditions are fulfilled in employee benefits expense. The cumulative expense recognised for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Companies' best estimate of the number of equity instruments that will ultimately vest. The statement of profit and loss expense or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period and is recognised in employee benefits expense.

No expense is recognised for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied.

The dilutive effect of outstanding options is reflected as additional share dilution in the computation of diluted earnings per share.

2.15 Equity share capital

Equity shares are classified as equity share capital. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

2.16 Provision for Dividend

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

2.17 Government grants

Government grants are recognised where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant or subsidy relates to revenue, it is recognized as income on a systematic basis in the statement of profit and loss over the periods necessary to match them with the related costs, which they are intended to compensate. Where the grant relates to an asset, it is recognized as deferred income and is allocated to statement of profit and loss over the periods and in the proportions in which depreciation on those assets is charged.

2.18 Borrowing cost

Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalized as part of the cost of the respective asset till such time the asset is ready for its intended use or sale. A qualifying asset is an asset which necessarily takes a

RAJSHREE POLYPACK LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

substantial period of time to get ready for its intended use or sale. Ancillary cost of borrowings in respect of loans not disbursed are carried forward and accounted as borrowing cost in the year of disbursement of loan. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest expenses calculated as per effective interest method, exchange difference arising from foreign currency borrowings to the extent they are treated as an adjustment to the borrowing cost and other costs that an entity incurs in connection with the borrowing of funds.

2.19 Segment reporting

Ind AS 108 establishes standards, for the way that business enterprises report information about operating segments and related disclosures about products, services and geographic areas, and major customers.

The primary reporting of the Company has been performed on the basis of business segments. Based on the "management approach" as defined in Ind AS 108, the Chief Operating Decision Maker (CODM) evaluates the Company's performance and allocates resources to manufacture of "Thermoformed Packaging Products" only hence it has been considered as the only reportable business segment and hence no separate financial disclosures provided in respect of its single business segment.

2.20 Statement of Cash Flows

Cash flows are reported using the indirect method, where by net profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities are segregated.

2.21 Earnings Per Share

Basic earnings per share is calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. Earnings considered in ascertaining the Company's earnings per share is the net profit or loss for the year after deducting preference dividends and any attributable tax thereto for the year. The weighted average number of equity shares outstanding during the year and for all the years presented is adjusted for events, such as bonus shares, other than the conversion of potential equity shares, that have changed the number of equity shares outstanding, without a corresponding change in resources.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year is adjusted for the effects of all dilutive potential equity shares.

2.22 Recent accounting pronouncements

(i) Ind AS 117 Insurance Contracts

The Ministry of corporate Affairs (MCA) notified the Ind AS 117, Insurance Contracts, vide notification dated 12 August 2024, under the Companies (Indian Accounting Standards) Amendment Rules, 2024, which is effective from annual reporting periods beginning on or after 1 April 2024.

Ind AS 117 Insurance Contracts is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Ind AS 117 replaces Ind AS 104 Insurance Contracts. Ind AS 117 applies to all types of insurance contracts, regardless of the type of entities that issue them as well as to certain guarantees and financial instruments with discretionary participation features; a few scope exceptions will apply. Ind AS 117 is based on a general model, supplemented by:

- o A specific adaptation for contracts with direct participation features (the variable fee approach)
- o A simplified approach (the premium allocation approach) mainly for short-duration contracts

The application of Ind AS 117 had no impact on the Company's standalone financial statements as the Company has not entered any contracts in the nature of insurance contracts covered under Ind AS 117.

(ii) Amendment to Ind AS 116 Leases – Lease Liability in a Sale and Leaseback

The MCA notified the Companies (Indian Accounting Standards) Second Amendment Rules, 2024, which amend Ind AS 116, Leases, with respect to Lease Liability in a Sale and Leaseback.

The amendment specifies the requirements that a seller-lessee uses in measuring the lease liability arising in a sale and leaseback transaction, to ensure the seller-lessee does not recognise any amount of the gain or loss that relates to the right of use it retains.

The amendment is effective for annual reporting periods beginning on or after 1 April 2024 and must be applied retrospectively to sale and leaseback transactions entered into after the date of initial application of Ind AS 116.

The Company has not entered such transaction hence no impact on the financial statement.

2.23 Rounding off amounts

All amounts disclosed in financial statements and notes have been rounded off to the nearest lakhs as per requirement of Schedule III of the Act, unless otherwise stated.

(₹ in Lakhs)

Note: 47 Employee Stock Option Scheme (ESOP)

Rajshree Polypack Limited formulated Employee Stock Option Plan viz. "Rajshree Polypack Limited - Employee Stock Option Plan - 2022" (the "Plan") for the benefit of employees of the Company. The shareholders vide its special resolution dated August 4, 2022 passed through postal ballots approved the Plan. Under the said plan the Nomination and Remuneration Committee is empowered to grant 5,63,000 Employee Stock Options in form of equity shares linked to the completion of a minimum period of continued employment to the eligible employees of the Company, monitored and supervised by the Board of Directors. The employees can purchase equity shares by exercising the options as vested at the price specified in the grant. Once vested, the options remain exercisable for a period of 2 years.

Options are granted under the plan for no consideration and carry no dividend or voting rights. When exercisable, each option is convertible into 1 number of equity share. The exercise price of the share options is equal to the Face value of the underlying shares on the date of grant. There are no cash settlement alternatives for the employees.

The Committee granted 16,500 options on February 6, 2023, 3,900 options on October 31, 2023, each stock option is exercisable into one equity share of face value of Rs. 10 each. Further The Committee granted 9500 options on February 5, 2025, each stock option is exercisable into one equity share of face value of Rs. 5 each.

The Company has made bonus issue of shares in the ratio of 2:1 during previous year, and accordingly outstanding employee stock options have been proportionately adjusted. As a result, the 20,400 outstanding options have been adjusted to reflect the bonus issue as follows:

Pre-bonus options: 20,400

Bonus shares entitlement (2:1): 40,800

Total adjusted options post-bonus: 61,200

Further, The Board at its meeting held on 6th August, 2024 approved sub division of equity shares of the company with existing face value of Rs. 10 each fully paid up into 2 each fully paid shares of Rs. 5 each. As a result 61,200 outstanding options have been adjusted to reflect the sub division as follows:

Options before sub division: 61,200

New Number of share on account of Sub division: 61,200

Total number of options after subdivision: 1,22,400

The following table illustrates the number and weighted average exercise prices (WAEP) of, and movements in, share options during the year

Note:

* (i) "Investments - Non-current - is classified in Level 1 of Fair Value Hierarchy"

(b) Fair valuation techniques

The Company maintains policies and procedures to value financial assets or financial liabilities using the best and most relevant data available. The fair values of the financial assets and liabilities are included at the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

The management assessed that fair value of Trade receivables (net), Cash and cash equivalents, Other bank balances, Loans - current, Other financial asset - current, Borrowings - Current, Trade payables and Other financial liabilities - current approximate their carrying amounts largely due to the short-term maturities of these instruments.

The amortized cost using effective interest rate (EIR) of non-current financial assets consisting of security deposits are not significantly different from the carrying amount. The impact of fair value on non-current borrowing, non-current security deposits and non-current term deposits is not material and therefore not considered for above disclosure.

(c) Fair value hierarchy

Financial assets and financial liabilities are measured at fair value in the financial statement and are grouped into three levels of a fair value hierarchy. The three Levels are defined based on the observability of significant inputs to the measurement, as follows:

Level 1 : Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2 : Other techniques for which all inputs which have a significant effect on the recorded fair value are observable, either directly or indirectly.

Level 3 : Techniques which use inputs that have a significant effect on the recorded fair value that are not based on observable market data.

Note: 55 Risk management framework

The Company's financial risk management is an integral part of how to plan and execute its business strategies. The Company's

RAJSHREE POLYPACK LIMITED

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

(₹ in Lakhs)

financial risk management policy is set by the Board. The Company is exposed to various financial risks. These risks are categorised into market risk, credit risk and liquidity risk.

The Company has exposure to the following risks arising from financial instruments:

- Credit risk;
- Liquidity risk;
- Market risk

(a) Credit risk :

Credit risk is the risk that counterparty will not meet its obligations under a financial instrument or customer contract, leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) and from its financing activities, including deposits with banks and other financial instruments.

Trade receivable

Customer credit risk is managed by the business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. To manage trade receivable, the Company periodically assesses the financial reliability of customers, taking into account the financial conditions, economic trends, analysis of historical bad debts and aging of such receivables. For receivables, as a practical expedient, the Company computes expected credit loss allowance based on a provision matrix. The provision matrix is prepared based on historically observed default rates over the expected life of trade receivables and is adjusted for forward-looking estimates.

The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets disclosed in Note 54. The Company does not hold collateral as security.

Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the management in accordance with the Company's policy. Counterparty credit limits are reviewed by the management on an annual basis, and may be updated throughout the year / period. The limits are set to minimise the concentration of risks and therefore mitigate financial loss through counterparty's potential failure to make payments.

(b) Liquidity risk :

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to Company's reputation.

Management monitors rolling forecasts of the Company's liquidity position and cash and cash equivalents on the basis of expected cash flows to ensure it has sufficient cash to meet operational needs. Such forecasting takes into consideration the Company's debt financing plans, covenant compliance and compliance with internal statement of financial position ratio targets.

(i) Maturities of financial liabilities:

The following are the remaining contractual maturities of financial liabilities at the reporting date:

Particulars	Less than 1 year	1 to 5 year	Above 5 years	Total

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED MARCH 31, 2025

(₹ in Lakhs)

(c) Market risk

Market risk is the risk that changes in market prices – such as foreign exchange rates, interest rates and equity prices – will affect the Company's income or the value of its holdings of financial instruments. Market risk is attributable to all market risk sensitive financial instruments including foreign currency receivables and payables and long term debt. The Company is exposed to market risk primarily related to foreign exchange rate risk, interest rate risk and the market value of certain commodities. Thus, its exposure to market risk is a function of investing and borrowing activities and revenue generating and operating activities. The objective of market risk management is to avoid excessive exposure in revenues and costs.

(i) Interest Rate Risk

Interest rate risk can be either fair value interest rate risk or cash flow interest rate risk. Fair value interest rate risk is the risk of changes in fair values of fixed interest bearing investments because of fluctuations in the interest rates. Cash flow interest rate risk is the risk that the future cash flows of floating interest bearing investments will fluctuate because of fluctuations in the interest rates.

Exposure to interest rate risk

Particulars	As at March 31, 2025	As at March 31, 2024
Fixed rate instruments		
- Borrowings	57.09	72.71
Floating rate instruments		
- Borrowings	3,278.21	1,973.70
Total	3,335.30	2,046.41

Fair value sensitivity analysis for fixed-rate instruments

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

Fair value sensitivity analysis for floating-rate instruments

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of loans and borrowings affected. With all other variables held constant, the Group's profit before tax is affected through the impact on floating rate borrowings, is as follows:

Effect	Increase/ (decrease) in basis points	Effect on profit before tax	
		As at March 31, 2025	As at March 31, 2024
INR - Increase	25.00	8.20	4.93
INR - Decrease	(25.00)	(8.20)	(4.93)

(ii) Foreign currency exposure

The Company undertakes transactions denominated in foreign currencies; consequently, exposures to exchange rate fluctuations will arise.

The carrying amounts of the company's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

Particulars	Currency	As at March 31, 2025		As at March 31, 2024	
		In foreign currency	In INR	In foreign currency	In INR

Note: 56 Capital risk management

The Company manages its capital to ensure that it will be able to continue as a going concern so, that they can continue to provide returns for shareholders and benefits for other stakeholders and maintain an optimal capital structure to reduce cost of capital. The Company manages its capital structure and make adjustments to, in light of changes in economic conditions, and the risk characteristics of underlying assets. In order to achieve this overall objective, the Company's capital management, amongst other things, aims to ensure that it meets financial covenants attached to the borrowings that define the capital structure requirements.

Consistent with others in the industry, the Company monitors capital on the basis of the gearing ratio. The ratio is calculated as net debt divided by equity. Net debt is calculated as total borrowing (including current and non-current terms loans less cash and bank balances as shown in the balance sheet).

The Company monitors capital using 'Total Debt' to 'Equity'. The Company's Total Debt to Equity are as follows:

Particulars	As at March 31, 2025	As at March 31, 2024
Total debt*	10,397.14	7,346.18
less: cash and cash equivalent	723.41	298.18
